Candidate Manifesto Guide

Your manifesto

All nominees for the Students' Union Elections must submit a manifesto. This will be visible to voters online, both on the website and on the candidate handbook. Your manifesto for the website has to be in plain text.

Here are some of the key things to consider for your manifesto:
· An introduction to yourself
· Your priorities if elected

Your priorities could highlight some key areas that matter most to City St George's students. Use existing insights found by the Students' Union from our reports and tap into your own student knowledge on issues that matter to students. For your top priorities, provide at least two actionable steps you'd take to address each issue.

Tips

Make your manifesto eye-catching and interesting while also conveying what you stand for and why you think it is important.

Avoid unfeasible ideas as they will only set you up for failure. To avoid this stay updated with what the SU planning to ensure you address what is important.

Support

Reach out to the helpful Elections team if you have any questions about the nominations process by email on suelections@city.ac.uk or visit our officers on Level 2 of the Drysdale building on the Northampton Square campus.
